# CULTURAL TRANSFORMATION ROADMAP

HEALTH + PERFORMANCE + DIGITAL

## FY 2020 & 2021: ALIGN + DEPLOY ●

Align the Coalition's strategy, culture, climate and values around our clear, compelling vision for the future

Deploy new tech systems as a part of Digital Transformation

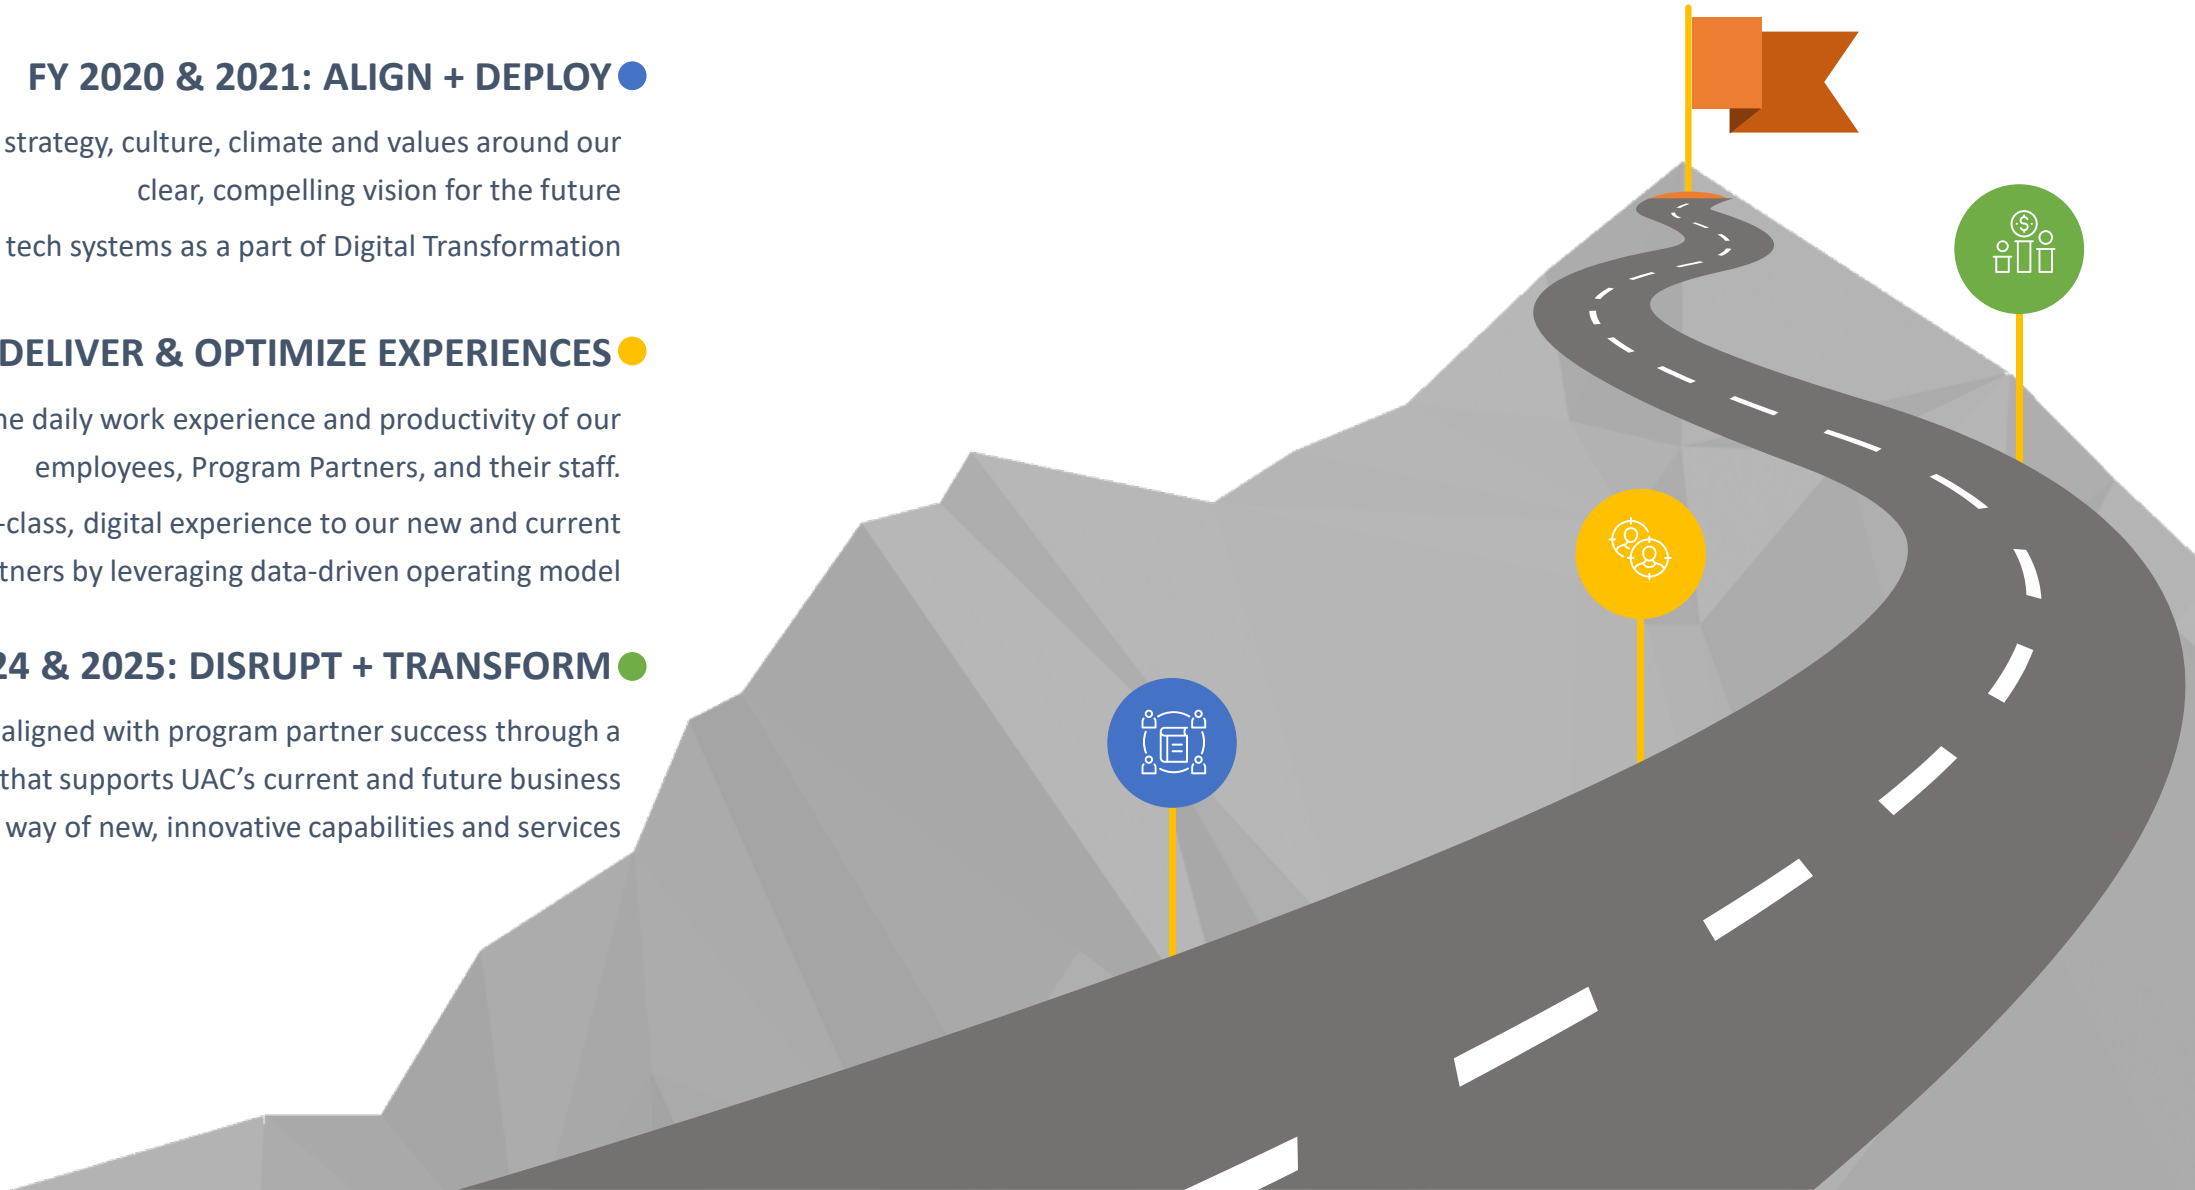

## FY 2022 & 2023: DELIVER & OPTIMIZE EXPERIENCES ●

Improve the daily work experience and productivity of our employees, Program Partners, and their staff.

Deliver world-class, digital experience to our new and current Program Partners by leveraging data-driven operating model

## FY 2024 & 2025: DISRUPT + TRANSFORM ●

Culture and talent aligned with program partner success through a digital strategy that supports UAC's current and future business models by way of new, innovative capabilities and services

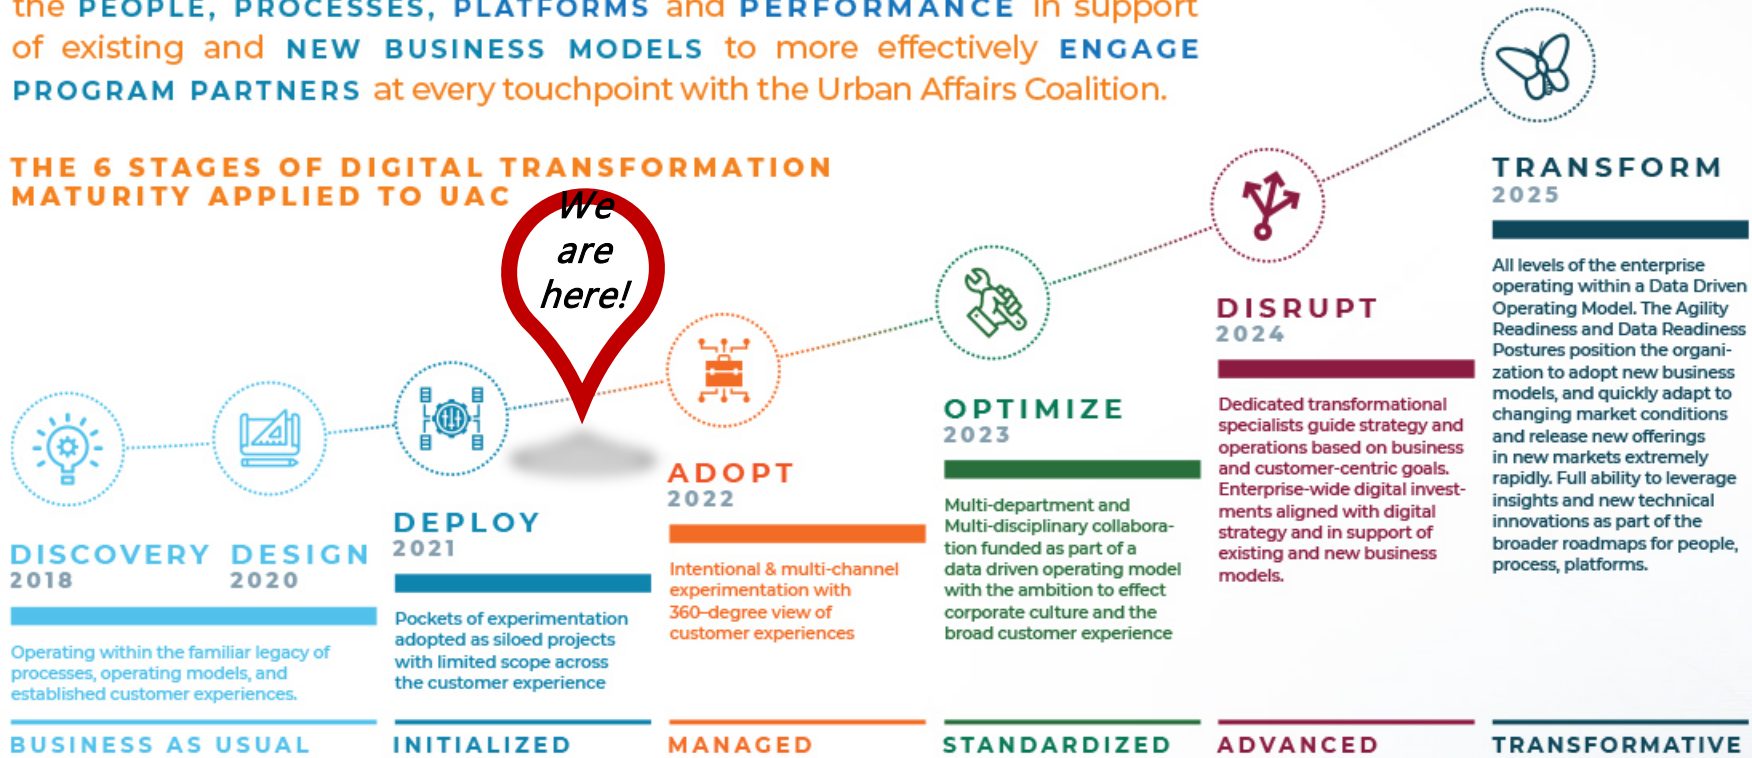

# Introducing the Urban Affairs Coalition's Digital Transformation Initiative

We define Digital Transformation as the re-alignment and investment in the **PEOPLE, PROCESSES, PLATFORMS** and **PERFORMANCE** in support of existing and **NEW BUSINESS MODELS** to more effectively **ENGAGE PROGRAM PARTNERS** at every touchpoint with the Urban Affairs Coalition.

## THE 6 STAGES OF DIGITAL TRANSFORMATION MATURITY APPLIED TO UAC

Digital Transformation is more than technology — we are adopting a Data Driven Operating Model, fundamentally changing how we operate and deliver value to our Program Partners. It will allow us to leverage innovations, act quickly on data, exceptions and insights, and to improve our performance on every dimension.

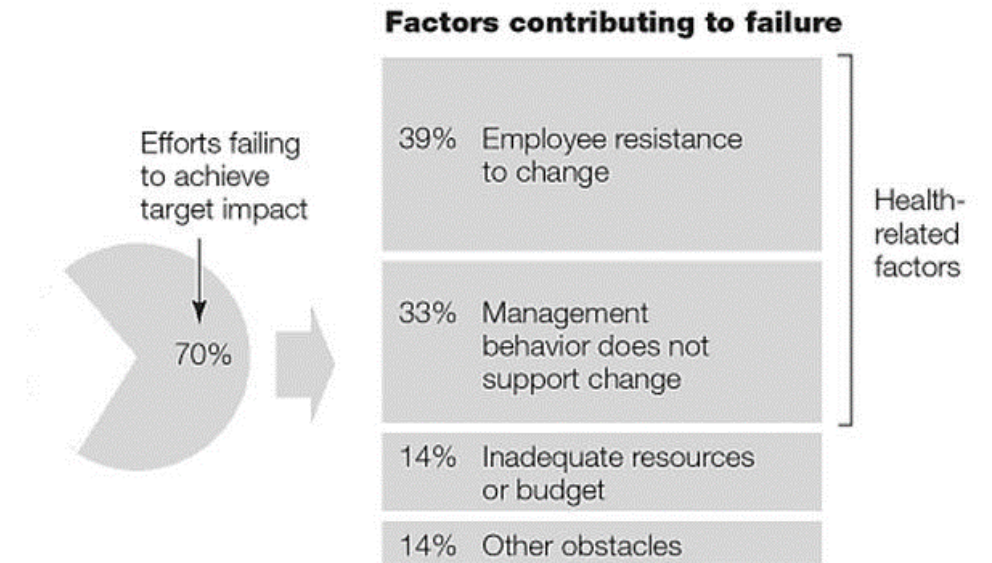

It's also a cultural change that requires organizations to continually challenge the status quo, experiment, and eventually launch new offerings and open up new markets.

**The investments are underway, and we are ready to implement our first major deployment.**

# WHY FOCUS ON ORGANIZATIONAL HEALTH?

- The major barrier to organizational change is organizational health.
- Almost all organizations perform better if they improve their health.
- Those with organizational health challenges make the biggest advances.

# ....PERFORMANCE?

When a company monitors key performance indicators during a transformation, its change effort's success is four times likelier.

% of respondents reporting successful transformations<sup>1</sup>

## 1. Performance management

*"The organization closely monitored the solution's key performance indicators to ensure that its implementation was having the desired effects"*

## 2. Training

*"The organization held dedicated training sessions to teach employees how to use the digital solution in their business units"*

## 3. Capabilities

*"After piloting, there was a clear process in place for handing off the solution to the relevant business unit"*

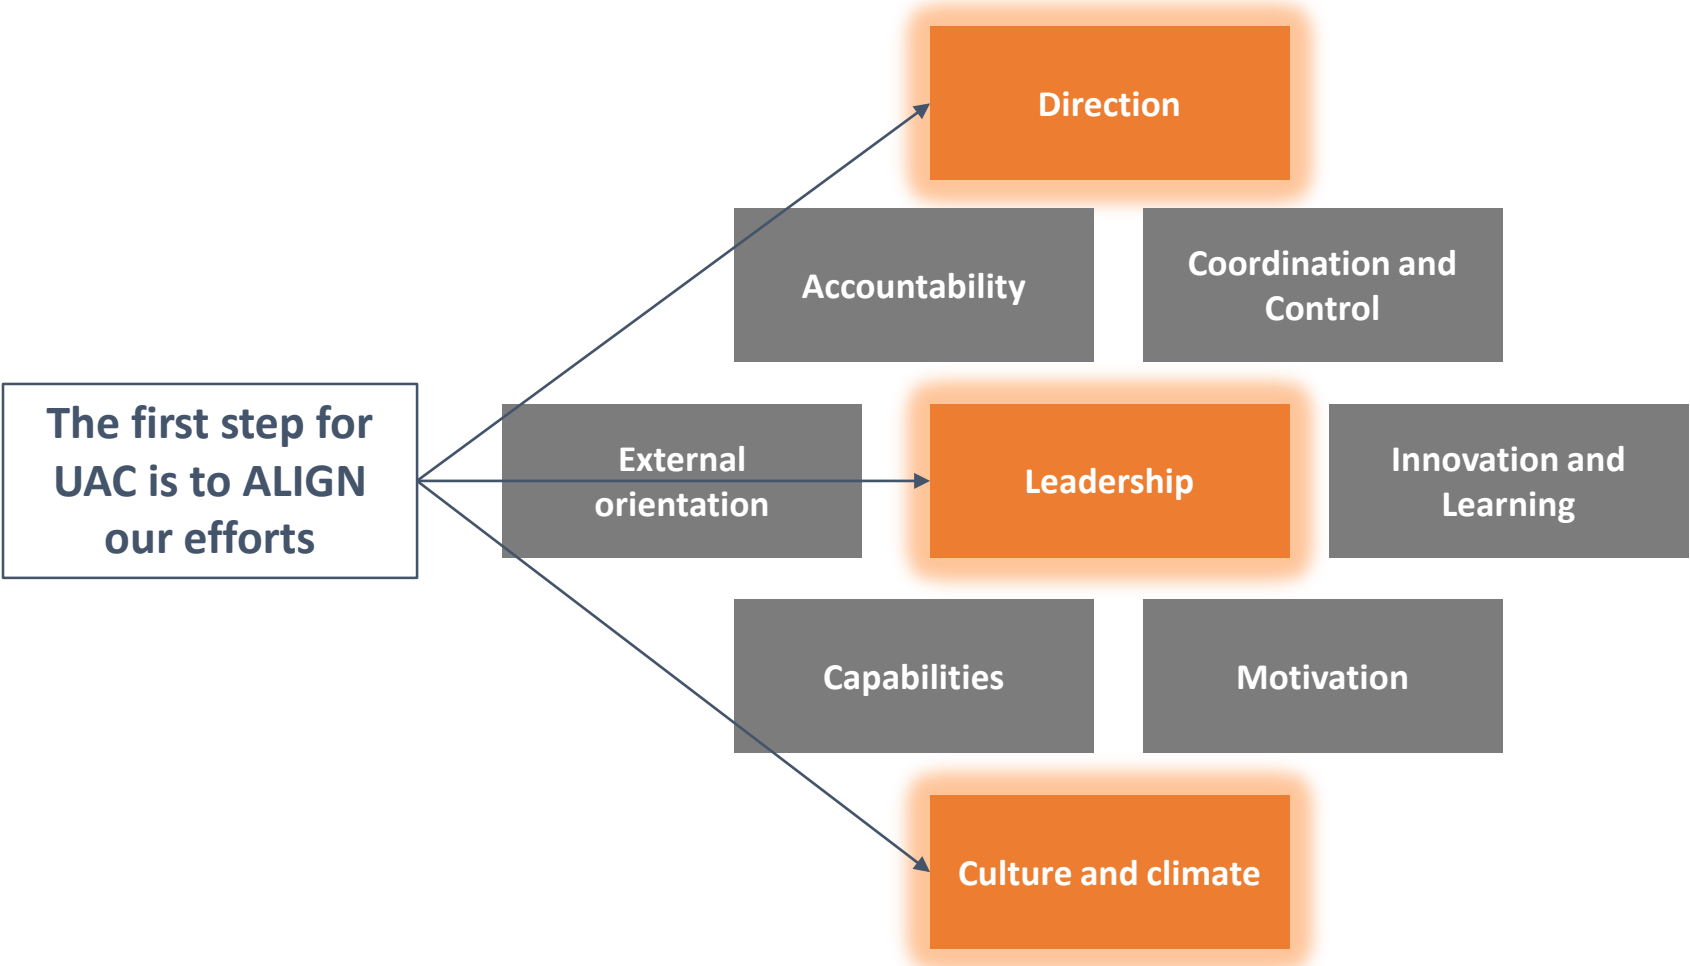

<sup>1</sup>Respondents who say their organizations' transformations have been successful at both improving performance and sustaining those improvements over time, n = 509.

# WHAT DOES IT MEAN TO ALIGN?

## Direction

UAC is able to craft and communicate a compelling strategy, reinforced by systems and processes. It provides meaning and purpose that engages our people around our mission and vision for the future.

## Leadership

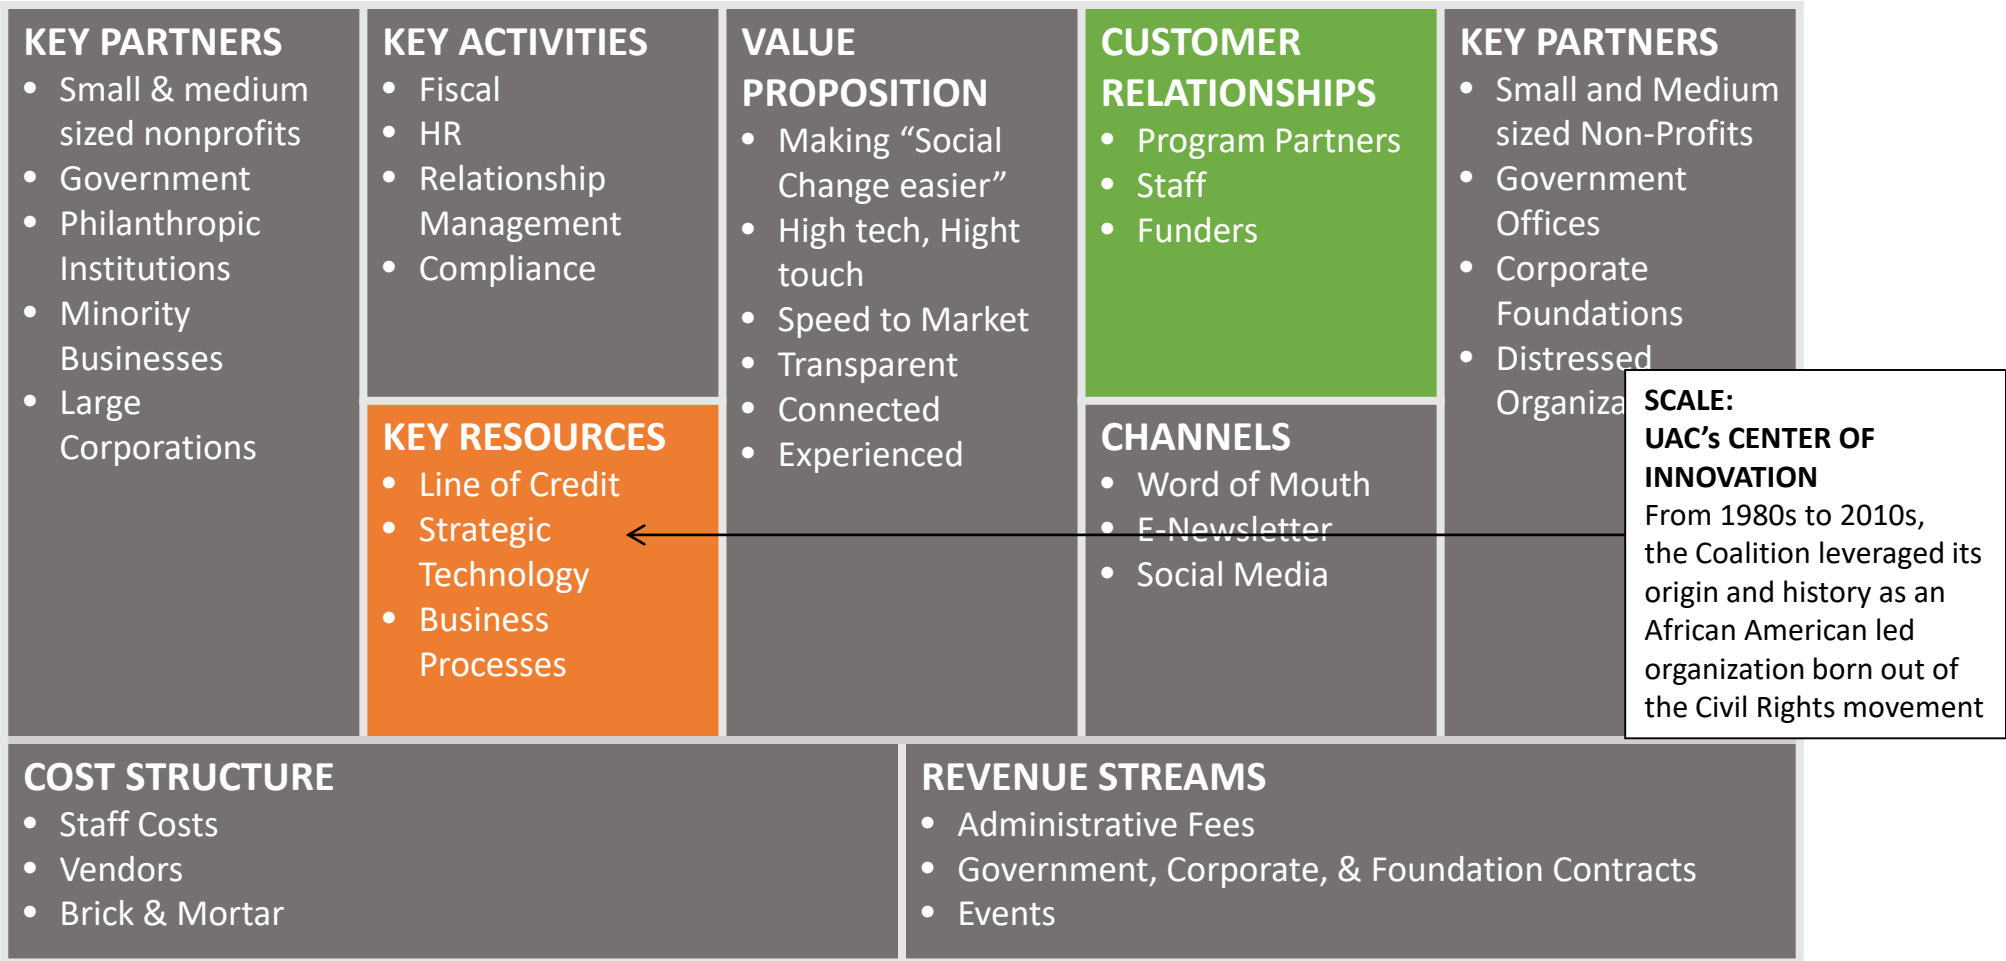

UAC's Leadership shows care towards staff and their needs; Leaders set stretch goals and inspire staff to achieve their full potential, inside and outside of work.

## Culture + climate

UAC has a baseline of trust, mutual understanding and respect within and across the organization, upheld by each employee. The organization creates a healthy, strong, adaptable organization-wide culture that attracts talent and drives performance.
